

WRAP's Vision

- ✓ Work as a community partnering together to solve home access barriers
- ✓ Provide a range of opportunities for volunteers to utilize their experience-based talents in a rewarding program to help others
- ✓ Establish and maintain criteria for determining the eligibility of services
- ✓ Determine the magnitude of the need
- ✓ Develop a comprehensive design plan
- ✓ Establish and maintain sustainable funding
- ✓ Establish a marketing plan
- ✓ Maintain a reputation of quality service

- ✓ Veterans of Foreign Wars Post 788

WRAP Coalition History

In April 2005, a coalition of agencies and individuals came together to explore timely and cost-effective responses to the aging and disabled populations who are in need of safe and effective home access via wheelchair ramps.

All design, construction and labor are provided by volunteers.

Funding sources include various private donations, community sponsorships, grants, private individuals and low interest loans applied for by the client.

MISSION:

To develop and maintain a program that will provide affordable, flexible home access on a timely basis for those in need.
